To: Office of Police and Crime Commissioner – Performance Meeting

Date: 29th June 2017

By: Paul Bundy

Title: Force Financial Report Month 2 – 2017/18

1. Purpose of Report/Issue:

1.1. This report presents the Force's financial position for May 2017, month 2 of 2017/18.

2. Introduction/Background:

- 2.1. The gross revenue budget for the year is £213.0m an increase of £0.4m compared to last year's budget of £212.6m. This report provides the revenue and capital position for the Force with the PCC budget separated out and reported elsewhere. The Force revenue budget is £210.9m against forecast spend for the year of £208.7m.
- 2.2. A risk regarding the financial volatility of the budget monitoring process was an issue for 2016/17, the Joint Finance Team are currently implementing improved processes to start in month 3 of 2017/18 which should reduce this volatility.
- 2.3. The forecasting methodology was changed in December 2016 from using actual data up-to the current month with a forecast position for the remaining months, to forecasting the current and remaining months. This change has been incorporated to enable the Joint Finance Team more quality assurance time within the monthly monitoring timetable.
- 2.4. For month 2, as it is early in the year, non-pay budgets have been forecast to budget. The pay forecast which is prepared by the People Services Performance and Reporting Team has been used for this corporate report deviating away from the methodology described in 2.3 above, this also differs to local reports where both pay and non-pay have been forecast to budget. The pay forecast presents an under spend which is likely to be offset in part by non-pay budgets when forecast in month 3, and has been offset by a forecast overspend in agency costs based on the year to date spend.
- 2.5. The PCC approved a capital programme totalling £14.2m, which when combined with a potential carry forward from 2016/17 of an additional £2.7m (subject to PCC approval) gives a total capital budget of £16.9m for 2017/18. The Force is reviewing the size of the capital programme to ensure it is manageable over the year, and as with 2016/17 will be looking to run a flexible programme, enabling the Force to bring forward schemes or transfer identified schemes in a later year. Total capital expenditure at month 2 is £1.7m with future committed orders totalling £2.1m.

3. Revenue Budget Position

3.1. The Force's revenue outturn position for 2017/18 is an under spend of £2.2m. Detailed at appendix A is a table that provides the Force budget by function and also by cost type.

3.2. Summary position.

Annual Month 1			Annual Month 2			
Forecast	Budget	Variance	Actual	Budget	Variance	
£m	£m	£m	£m	£m	£m	
210.9	210.9	0	208.7	210.9	(2.2)	

3.3. Pay Budgets

- 3.3.1. Total pay is underspent in the amount of £2.2m;
- 3.3.2. The police officer pay is forecast to be underspent by £1.0m predominately due to variances in officer pay rates. Actual officer numbers for the first 2 months of the year have been in-line with the budgeted FTE of 1,927, and are forecast to remain as such during the year.
- 3.3.3. The month 2 pay forecast shows an average of 1939 FTE officers for the year, which results in an over spend totalling £0.6m, compared to the budget of 1927 FTE. The offsetting £1.6m underspend is the variance between the actual and budgeted officer rates, showing the differential between a probationers salary and slightly higher graded officers leaving the force. Variances for month 2 are only shown for police pay (including national insurance (NI) and pension), forecasts for allowances will be shown in month 3 as per 2.4 above.

	Month 1			Month 2		
Variance	Volume £'000	Rate £'000	Total £'000	Volume £'000	Rate £'000	Total £'000
Police pay, NI & Pension	-	-	-	592	(1,659)	(1,067)

- 3.3.4. Whilst the above calculations are based on averages they show that the additional 12 officers result in a £0.6m overspend for pay, NI and pension (£49.8k per FTE). The rate variance shows the budgeted rates of £49.8k per officer for pay, NI and pension, is slightly higher than the actual per FTE which is £48.9k.
- 3.3.5. Police staff pay is forecast to be underspent by £2.3m. The staff underspend reflects the vacancy rate being above the 5% target, with the projection being that the number of staff working in the force will decrease during the financial year, although in September there will be a rise. The Force is currently under established on police staff and this is projected to remain so for the entire financial year. There are also a limited number of posts currently being held pending the implementation of change projects.

- 3.3.6. Agency costs are forecast to be overspent by £1.2m based on the current year to date spend. Within Specialist Crime additional agency costs are expected due to Digital Forensics and Op Ravine along with covering vacancies.
- 3.3.7. All other pay costs have been forecast to budget at this early stage in the year, however it should be noted that the actual spend in Police Overtime was particularly high during month 2 at £0.8m, compared to prior year monthly averages of £0.5m per month. Further analysis will be required to understand the reason for this increase.

3.4. Non Pay Budgets

3.4.1. The non-pay budgets have been forecast to budget at this early stage in the year.

4 Savings

- 4.1 The outturn Strategic Change Savings schedule for 2017/18 currently shows a potential over achievement of savings of £2.4m, as can be seen in the table below.
- 4.2 In summary the 2017/18 budget included a savings target of £5.5m is currently forecast to over achieve by £2.4m.
- 4.3 The level of confidence in the savings is graded either purple, red, amber or green. The current profile has £1.6m as purple, red are £1.5m, amber are nil and the remainder £5.1m are green. The majority of the savings graded as green for 2017/18 have been taken as part of the budget setting process.
- 4.4 The Change Board is reviewing the savings classified as purple and therefore it is prudent not to rely on these being delivered.
- 4.5 The position is less favourable is they are removed in total leaving only a potential surplus of £0.8m with £1.5m of projects considered likely to change.

Financial Confidence RAG Totals	Surrey
Green = on plan & saving will be achieved	5,074
Amber = Some movement to deadline or saving possible	0
Red = Saving figure or timing likely to be subject to change	1,497
Purple = Estimates based upon 45-55% split of benefits	1,625
Surplus / Deficit brought forward	(329)
Total Savings Plan	7,867
Savings Target MTFP	5,500
Variance between Savings Target & Savings Plan	2,367

5. Reserves

5.1. General reserves at the beginning of the year (1/4/17) were £8.7m, with specific reserves being an additional £6.4m and consisting of; the Chief Constable's Operational Reserve £0.6m, Operation Heather reserve £0.2m, Training

- reserve £0.4m and Estate maintenance reserve of £0.5m, Insurance reserve £2.0m and III Health reserve £2.7m.
- 5.2. The 2017/18 budget included the use of £1.4m general reserves which will reduced the balance to £7.3m. Any over or underspends at the year-end are also transferred to the general reserves.
- 5.3. The Insurance reserve and III Health reserve are used on an ongoing basis throughout the year to cover insurance liabilities and ill health commutations as they occur. For 2017/18 a decision was made not to transfer any additional funds to the ill Health reserve to save revenue cost for one year.
- 5.4. The Training Reserve is for additional PiYN implementation costs that will be incurred with the first half of 2017/18.
- 5.5. It is anticipated that the balance on the Operation Heather reserve will be fully utilised during the year.

6 Capital Budget Position

- 6.1. The PCC approved a capital programme for 2017/18 totalling £14.2m, the carry forward from 2016/17 is an additional £2.7m (subject to PCC approval) giving a total capital budget of £16.9m. Detail of the capital programme is provided in appendix D.
- 6.2. The Force is reviewing the size of the capital programme to ensure it is manageable over the year, and as with 2016/17 will be looking to run a flexible programme, enabling the Force to bring forward schemes or transfer identified schemes in a later year.
- 6.3. The significant capital projects are ICT and Fleet replacement schemes, Digital Enablement, Enterprise Resource Planning (ERP), Air-conditioning, Estates Strategy and Integrated Communication & Control System (ICCS).
 - 6.1. Total capital expenditure at month 2 is £1.7m with future committed orders totalling £2.1m.
- 6.2. 2017/18 capital expenditure will be financed from grants received from the Home Office & other contributions, capital receipts from the sale of assets, and revenue funding. If necessary borrowing can also be used to fund capital expenditure, at present this is not required due to the level of receipts received and forecast from police buildings and house sales.

7. Provisions

- 7.1. Provisions at the beginning of the year (1/4/17) were £2.1m, relating to restructuring £0.5m, Insurance Provision £1.5 and Bad Debt 0.1m.
- 7.2. Historically the Insurance fund was accounted for as a reserve, this changed in 2015/16 and has now been split between a reserve and provision in accordance with the insurance fund actuarial report.
- 7.3. The restructuring provision relates to 2017/18 change programmes, during the year, as changes programmes have been implemented the provision is released.

8. Risks

- 8.1. The inability to control financial expenditure and achieve value for money would impact on achieving performance objectives and attract negative attention that affects the Force's reputation. The following are highlighted requiring attention;
 - 8.1.1. The Force continues to experience demand from significant historic cases such as Op Ravine/Livingstone, some funding has been included in the budget however this cost will be monitored closely during the year.
 - 8.1.2. There are currently oil and gas exploration protests in the county which drew on resources during 2016/17 and continues into 2017/18.
 - 8.1.3. Emergency Services Network (ESN) Work has started on the implementation of ESN but there is still significant uncertainty on the timing, resources and funding for this implementation.
 - 8.1.4. The financial forecasts presented an unusual level of volatility during 2016/17 which was sighted as due to the new ways of working with budget holders on the learning curve to fully understand their finances. This subsequently reduced the level of confidence in financial forecasts. A gold group continues to oversee improvements required within the Joint Finance Team, which are in the process of being implemented.

9. Decision[s] Required

9.1. This report is for information.

Recommendation(s)/Future Activity:		
Risks: See section 8.

Abbreviations

PCC - Police and Crime Commisioner

DCC - Deputy Chief Constable

ICT – Information Communication Technology

PSD - Professional Standard Department

ACPO - Chief Officers

ERP - Enterprise Resource Planning

PiYN - Policing in Your Neighbourhood

FTE – Full-time equivalent

DFT – Digital Forensic Team

POLIT – Paedophile Online Investigation Team

ICCS - Integrated Communications and Control System

ANPR – Automatic Number Plate Recognition
