### ***Applications not recommended/deferred by the panel - redacted<sup>1</sup>***

#### ***Browns Community Services CLC – The Rebuild Project***

The Rebuild project provides innovative community-based support to the parents of children who have or are at risk of child exploitation. This is provided through interventions designed to motivate and engage the parents of families with multiple and complex needs. The PCC has already awarded £5,000 to run the pilot and has received no end of year report. It was also felt that with the vast changes at Surrey County Council, a service like this was valuable but needed to be coordinated within the new Early Help programme and therefore activity should be co-commissioned with SCC. It was therefore felt that the application should be refused until it is clear whether the pilot has been successful and in partnership with SCC

#### ***Surrey Community Action – Safeguarding Training***

The applicant sought funding to deliver 20 safeguarding sessions to community leaders including trustees and volunteers in Surrey's many charity, faith and voluntary sector groups. The training would follow training as developed by the Surrey Safeguarding Children Board and the Surrey Safeguarding Adults Board. While feedback from experts agreed that any safeguarding training to community groups would be beneficial it was noted that these groups can access the training the two Boards already deliver, there is no need for a their party. It was also felt that with the new Surrey Academy it might be best to wait until they have developed their new training provisions. The Board therefore refused the application.

#### ***Surrey Search and Rescue – Enhanced Communication***

Surrey Search and Rescue had recently purchased 40 digital VHF radios for their volunteer responders. The radios have significantly better range, clearer audio and GPS tracking so they are able to ensure the crews are safe when out searching for vulnerable missing people. The Panel and the PCC is very supportive of Surrey Search and Rescue and the work they do, however it was felt that providing every volunteer with a radio did not seem like value for money. It was agreed the application would be deferred for more information.
