<p>2016/01 (Continued)</p>	<p>The highest number of people consuming illegal drugs in the last 5 years (December 2010 – December 2015) was committed by the white community in your area. Yet the Black community are stopped and searched 5 to 17 times more often. The highest number of people consuming illegal drugs in the last 5 years (December 2010 – December 2015) was committed by the white community in the UK. Yet the Black community are stopped and searched 5 to 17 times more often. The largest amount (in weight) of illegal drugs sold in the last 5 years (December 2010 – December 2015) was by the white community in your area. Yet the Black community are stopped and searched 5 to 17 times more often. The largest amount of illegal drugs sold in the UK in the last 5 years (December 2010 – December 2015) was by the white community. Yet the Black community are stopped and searched 5 to 17 times more often The largest amount of illegal drugs imported into the UK in the last 5 years (December 2010 – December 2015) was by the white community. Yet the Black community are stopped and searched 5 to 17 times more often. The largest amount of illegal drugs exported to the UK in the last 5 years (December 2010 – December 2015) was by the white/Indian continent community. Yet the Black community are stopped and searched 5 to 17 times more often. Why then are Black British Christians more likely to be stopped than any other race in Britain. Even during a time of war against terror? Could it be because the Black British Christian population does not have the same wealth, lucrative investment deals, or the robust political representation to affect the status quo? Or is the British slave mentality of the 1800's so ingrained within Political, judicial and media mind, that it is unwilling to acknowledge that the self appointed superior racial grouping has a spiralling crime rate, out stripping any other race in the UK. The continued blinkered, but tried and tested use of the "inferior" black population as the sacrificial woe's of this country, is the man clinging to the belief that he will always be above the effects of the hang mans noose, even as it begins to tighten? Our greatest concern is the steady fast support for a body that is estimated to have 1/3 of its police force in England and Wales belonging to right wing/nationalist extreme parties or groups, but are able to perform their duties without bias regardless of their extreme views/beliefs; unlike other extreme groups that the force deem dangerous. Do the commissioners support the abilities of those police officers who belong to such groups, and should they be allowed to continue in such a roll considering the diverse society we now live in? The message that the police force in England and Wales is sending out to white criminals is – if you have a number of Black British people living in your area, you are up to 17 times more likely to get away with criminal acts due to the mindset of the police force and the Commissioners who continue to endorse racial implicit/explicit basis profiling. The sums no longer add up. We want a full explanation for this discrepancy and what real changes regarding stop and search of black British citizens and what immediate action are going to be taken tackling the higher number of crime committed within the white community?</p>	<p>Information not held by OPCC - forwarded to Surrey Police Information Access Team</p>
